Technical Skills

// Programming Languages

Major	Minor
C#	Solidity
Kotlin	Python
Java	PHP
Javascript	HTML/CSS
SQL	Scala

// DevOps

Docker
Kubernetes
Prometheus
Grafana
Kafka
Jenkins
Azure DevOps

// Cloud

Azure
Google

// Frameworks

Spring
.NET Core
Express.js
Node.js
Hyperledger

// Databases

MongoDB
PostgreSQL
CouchDB
Oracle SQL
Neo4j

Experience

10/2022 - Present — **Backend Engineer**
tb.lx by Daimler Truck
Joined a product team to develop digital solutions for electric vehicle charging stations. Designed and maintained a RESTful and GraphQL microservice architecture..
Kotlin, Java, Spring Boot, Kubernetes, Kafka, PostgreSQL, MongoDB, Azure Cloud

12/2021 - 10/2022 — **Software Engineer**
Capgemini Portugal
Maintained multiple projects for clients in the insurance and banking sectors, developing new features and supporting various initiatives.
ASP.NET 1.1, .NET Framework, SQL

01/2021 - 12/2021 — **Software Engineer**
NOS Inovação (BOLD by Devoteam)
Integrated a microservice development environment at one of Portugal's largest telecom companies, architecting, developing, unit testing, and deploying multiple microservices that form the backbone of end-user products.
C#, .NET Core, Javascript, Node.js, Jenkins, Docker, Kubernetes, MongoDB, Prometheus, Grafana, Redis, Kafka

10/2019 - 10/2020 — **Curricular Internship - Master Thesis**
Card4B - Systems S.A.
Led the development of a Blockchain-based ticketing solution for the public transport industry, including an Identity Management module to handle passenger identities across the system. Also created a mock-up for a MaaS application for travelers.
Javascript, Express.js, Node.js, NPM, Hyperledger Framework, Docker, CouchDB, OpenID Connect

Certifications

Google Cloud Platform
✓ Cloud Digital Leader
✓ Associate Could Engineer

Education

2017 - 2020 — **Master of Science in Software Architecture**
Faculdade de Ciências da Universidade de Lisboa

2013 - 2018 — **Bachelor of Science in Software Engineering**
Faculdade de Ciências da Universidade de Lisboa
